

Set 5 Test 2

Part 1

You should spend about 20 minutes on this task. Write at least 150 words.

The chart below compares the ecological footprint and biocapacity per capita of six major regions and the world average in 2022.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Part 2

You should spend about 40 minutes on this task. Write at least 250 words.

Write about the following topic:

Online platforms increasingly use algorithms to select news, recommend content and remove inappropriate material. Although these systems help people manage large amounts of information, they may also spread misinformation, increase political divisions and limit the range of opinions that users see.

What problems can the use of algorithms to manage online content cause? What measures can governments and technology companies take to address these problems?

Give reasons for your answer and include any relevant examples from your own knowledge or experience.

Want to compare your response?
