

Set 5 Test 4

Part 1

You should spend about 20 minutes on this task. Write at least 150 words.

The diagram below illustrates the process of recycling lithium-ion batteries from end-of-life electric vehicles and shows how recovered materials are used to produce new batteries.

Summarise the information by selecting and reporting the main features.

## Part 2

You should spend about 40 minutes on this task. Write at least 250 words.

Write about the following topic:

Algorithms and artificial intelligence are increasingly being used to support decisions in the justice system, such as whether to grant bail or how to sentence offenders. Some people believe that these technologies can reduce human bias and make judicial decisions more consistent. Others argue that they may reproduce existing prejudices, reduce the role of human judgement and make decisions difficult to understand or challenge.

Discuss both these views and give your own opinion.

Give reasons for your answer and include any relevant examples from your own knowledge or experience.
