

Set 6 Test 1

Part 1

You should spend about 20 minutes on this task. Write at least 150 words.

The chart below shows the changes in population age structure (proportion of population aged 0-14, 15-64, and 65+) and the corresponding urban housing demand index in a country from 1990 to 2030 (with projections after 2020).

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Part 2

You should spend about 40 minutes on this task. Write at least 250 words.

Write about the following topic:

Some people believe that rapid technological advancement, particularly in automation and artificial intelligence, will lead to a future where most people have more leisure time and can pursue creative or personal interests. Others argue that it will instead result in greater economic inequality and job insecurity for the majority.

Discuss both these views and give your own opinion.

Give reasons for your answer and include any relevant examples from your own knowledge or experience.

Want to compare your response?
