

Set 6 Test 2

Part 1

You should spend about 20 minutes on this task. Write at least 150 words.

The chart below presents a multi-dimensional analysis of the relationship between national economic development, investment in innovation, and tertiary education attainment for a selection of twelve countries in 2022.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Part 2

You should spend about 40 minutes on this task. Write at least 250 words.

Write about the following topic:

Some people believe that technological innovation is the best way to address major global problems such as climate change, disease and food shortages. However, others argue that relying too heavily on technology may prevent societies from making necessary changes in government policy and individual behaviour.

To what extent do you agree or disagree that technological innovation should be the main solution to these problems?

Give reasons for your answer and include any relevant examples from your own knowledge or experience.

Want to compare your response?
