

Set 7 Test 1

Part 1

You should spend about 20 minutes on this task. Write at least 150 words.

The chart below shows the proportion of a country's total electricity generated from three renewable sources (solar, wind, hydropower) and from non-renewable sources over a twenty-year period (2000-2020).

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Part 2

You should spend about 40 minutes on this task. Write at least 250 words.

Write about the following topic:

Many employers now use automated algorithms and artificial intelligence to screen job applications and conduct initial interviews. Some people believe that these technologies can reduce human bias and make recruitment fairer and more efficient. Others argue that they may reproduce or even increase existing social biases because they are often trained on historical data.

Discuss both these views and give your own opinion.

Give reasons for your answer and include any relevant examples from your own knowledge or experience.

Want to compare your response?
