

Set 7 Test 3

Part 1

You should spend about 20 minutes on this task. Write at least 150 words.

The graph below shows the projected annual carbon dioxide removal capacity of two technologies—Direct Air Capture (DAC) and Enhanced Rock Weathering (ERW)—under two different policy scenarios (Baseline and Accelerated) from 2025 to 2050.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Part 2

You should spend about 40 minutes on this task. Write at least 250 words.

Write about the following topic:

Some people believe that blockchain and other decentralised technologies can increase trust and transparency, reduce corruption and make governments and traditional financial institutions less necessary. Others argue that these technologies have practical limitations and still require effective regulation and public institutions.

Discuss both these views and give your own opinion.

Give reasons for your answer and include any relevant examples from your own knowledge or experience.

Want to compare your response?
