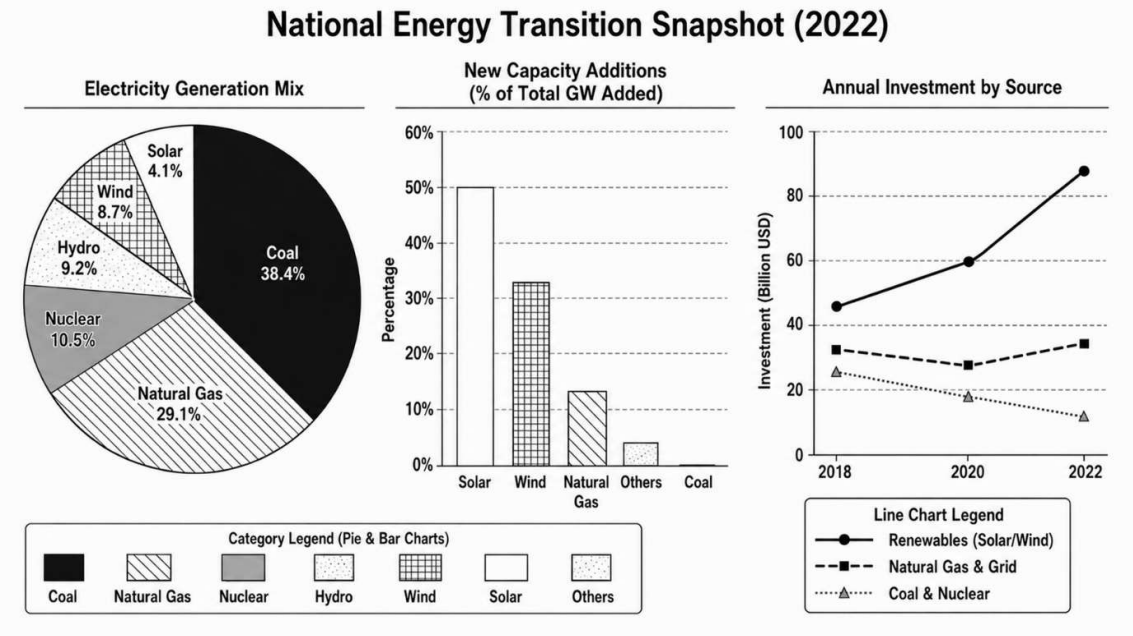
Set 7 Test 4

Part 1

You should spend about 20 minutes on this task. Write at least 150 words.

The charts below present a comprehensive view of a nation’s energy transition in 2022, showing the current electricity generation mix, the rate of new capacity additions, and the distribution of investment across different energy sources.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.



Part 2

You should spend about 40 minutes on this task. Write at least 250 words.

Write about the following topic:

Future technology may make it possible to create conscious digital copies of human beings. Some people believe that such digital beings should receive the same legal rights and social recognition as biological humans. Others argue that human rights should apply only to biological people and that digital copies should be treated differently.

Discuss both these views and give your own opinion.

Give reasons for your answer and include any relevant examples from your own knowledge or experience.

Want to compare your response?
