

Set 8 Test 1

Part 1

You should spend about 20 minutes on this task. Write at least 150 words.

The chart below shows projected changes in the modal shares of four selected types of urban transport in a metropolitan city from 2025 to 2040, following the introduction of three transport policies. The inset chart compares the projected private car share in 2035 under three policy scenarios.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Part 2

You should spend about 40 minutes on this task. Write at least 250 words.

Write about the following topic:

Some people believe that advanced artificial intelligence systems must be programmed to follow human ethical values before they become more capable. Others argue that human values differ across cultures and societies, and that programming such values into artificial intelligence may reflect the biases of its creators or limit its potential benefits.

Discuss both these views and give your own opinion.

Give reasons for your answer and include any relevant examples from your own knowledge or experience.

Want to compare your response?
