

Set 8 Test 3

Part 1

You should spend about 20 minutes on this task. Write at least 150 words.

The diagram below illustrates the process by which rainwater is collected, treated, and reused for domestic purposes in a residential property.

Summarise the information by selecting and reporting the main features.

Part 2

You should spend about 40 minutes on this task. Write at least 250 words.

Write about the following topic:

The internet provides unprecedented access to information, but it also allows for the widespread tracking of individuals' online activities. Many people accept this as a necessary trade-off for personalised services and security. However, others argue that this constant surveillance has created a society where privacy is no longer a realistic expectation.

What is your opinion on this issue? Is the loss of personal privacy an acceptable price for the benefits of the digital age, or should stronger measures be taken to protect individual privacy, even if it limits some services?

Give reasons for your answer and include any relevant examples from your own knowledge or experience.
