

Set 8 Test 4

Part 1

You should spend about 20 minutes on this task. Write at least 150 words.

The chart below compares the performance of four major e-commerce platforms from 2019 to 2023 based on their average annual gross merchandise volume (GMV) growth rate, market penetration and customer satisfaction index scores.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Part 2

You should spend about 40 minutes on this task. Write at least 250 words.

Write about the following topic:

Genetic engineering may one day be used not only to treat diseases but also to enhance human characteristics such as intelligence, physical ability or lifespan. Some people believe that this would help humans overcome biological limitations and improve their quality of life. Others argue that it could create serious ethical problems and increase inequality between those who can access such technologies and those who cannot.

Discuss both these views and give your own opinion.

Give reasons for your answer and include any relevant examples from your own knowledge or experience.

Want to compare your response?
