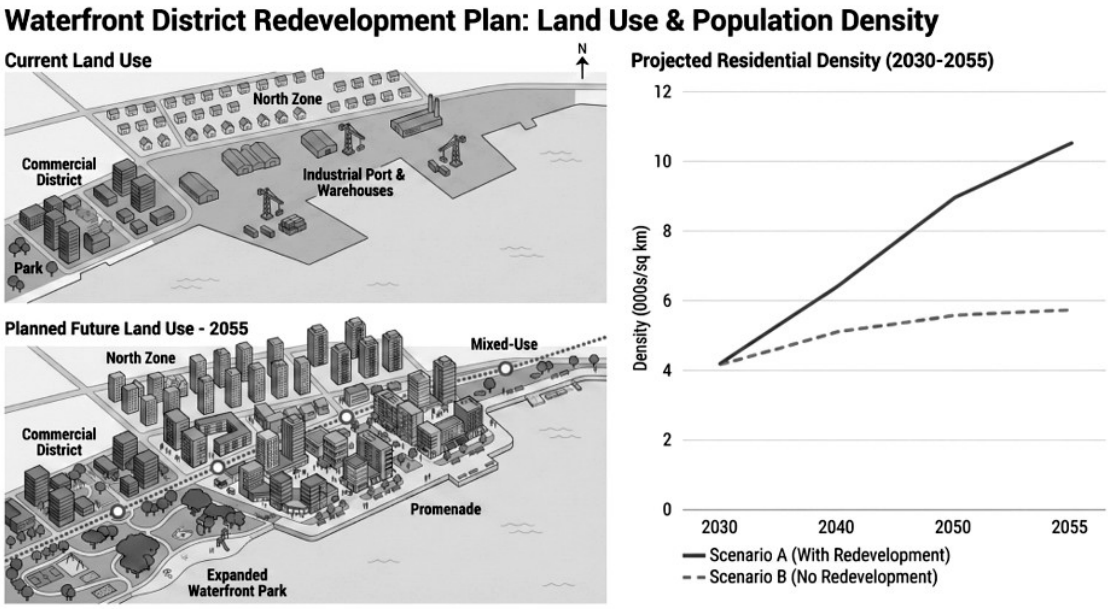
Set 9 Test 3

Part 1

You should spend about 20 minutes on this task. Write at least 150 words.

The maps and chart below illustrate the current and planned land use of a coastal city's central waterfront district and show the projected residential population density under two different scenarios from 2030 to 2055.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.



Part 2

You should spend about 40 minutes on this task. Write at least 250 words.

Write about the following topic:

The accelerating pace of technological and social change is creating a widening ‘experience gap’ between generations. Older generations may hold positions of power based on experience in systems that are becoming obsolete, while younger generations are ‘digital natives’ but lack institutional authority. Some argue this dynamic hampers effective decision-making in both the public and private sectors.

To what extent do you agree that intergenerational tension, stemming from differing experiences of technological change, is a significant obstacle to progress in contemporary society? What measures could be taken to better harness the unique strengths of different age groups in facing future challenges?

Give reasons for your answer and include any relevant examples from your own knowledge or experience.
