Part 2

You should spend about 40 minutes on this task. Write at least 250 words.

Write about the following topic:

Advances in gene-editing technology may make it possible to prevent serious inherited diseases by changing genes in ways that can be passed on to future generations. Some people believe that the potential medical benefits justify the use of this technology. Others argue that making permanent genetic changes to future generations creates unacceptable ethical and social risks.

Discuss both views and give your own opinion.

Give reasons for your answer and include any relevant examples from your own knowledge or experience.
