

Set 18 Test 4

Part 1

You should spend about 20 minutes on this task. Write at least 150 words.

The diagram below shows how a solar-powered water distillation unit works to produce fresh water.

Summarise the information by selecting and reporting the main features.

Part 2

You should spend about 40 minutes on this task. Write at least 250 words.

Write about the following topic:

Some people argue that space exploration is a waste of resources and that the money should be spent solving problems on Earth, such as poverty and climate change. Others believe that space research is essential for humanity's future.

Discuss both views and give your own opinion.

Give reasons for your answer and include any relevant examples from your own knowledge or experience.
